

Series 300 Dryers Specifications

Product Description

- A microprocessor controlled, filtered and heated forced air drying cabinet for all medical devices
- Includes: Five stainless steel half-width shelves each of which can bear up to 40 pounds
- Options:
 - Tube drying rack
 - Bag and bottle drying rack
 - HEPA filter
 - Additional half-width shelves
 - Full-width shelves
 - Stainless steel small parts tray (10-3/8" x 19-3/4" x 1")
 - Pass-through doors
 - Temperature display in °F or °C

Load Capacity

- Interior volume of 29 cubic feet
- Tube drying rack capacity is 84 tubes; Accepts up to 2-1/2" diameter tubes
- Bag & Bottle Rack can hold up to 12 devices
- Cabinet can hold up to 18 stainless steel, half-width shelves (20-1/2" x 14-1/4") **OR**
- Cabinet can hold up to 9 stainless steel, full-width shelves (33-3/8" x 20")

Cycle Description

- TIMED DRY cycle is set for any period between one minute and 99 hours; the timer does not run at temperatures below 110°F
- CONTINUOUS DRY cycle runs indefinitely

Construction

- Doors are clear composite and open 180 degrees
- Cabinet built of 16 gauge steel; cabinet floor, shelves, and trays built of 14 gauge stainless steel
- Finish is baked powder coat paint
- Chassis and cabinet riveted together

Features

- Forced air tube drying rack forces heated air through tubing; The rack slides out to assist with loading and unloading
- Fans are distributed throughout the cabinet for fast drying time
- Recirculating fan keeps internal cabinet temperature uniform
- Exhaust opening in top of cabinet for venting to hospital HVAC
- Shelving placement designed with proper ergonomics in mind

Controls

- Microprocessor controls for all cycle timing and temperature processes; visual signal when the cycle is complete
- Display continuously shows cycle status, time remaining, and cabinet temperature
- Display alert when HEPA filter needs to be replaced
- Mean cabinet temperature is maintained at 135-145°F (57-63°C) by the microprocessor

Warranty

- A standard two year warranty covers 100% of parts and labor
- An additional five years of warranty (parts only) may be purchased with the Extended Warranty Plan (EWP)

Service

- Warranty service is provided through Medical Equipment Repair Association (MERA), with over 85 offices nationwide, or through in-house biomedical staff

Models

- 330: Double front doors
- 340: Double front door & back doors (pass-through)
